

This livestreamed session package has been curated for you by the Scientific Program Chair and the Associate Program Chair. It offers a selection of the best science across a broad range of tropical medicine/global health foci, plus the Opening Plenary and Awards Program, the always fun Innovations Pitch Competition, the President's Address, a new session this year – Greening up Your Lab, Clinical Practice and Field Work – and full access to the ePoster Hall Gallery.

## SUNDAY, OCTOBER 30

**Plenary Session:** Opening Plenary Session and Awards Program

## MONDAY, OCTOBER 31

**Late-Breaker Abstract Session:** Late-Breakers in Basic Science

### Scientific Sessions:

- Parasite Immunology  
American Committee of Molecular, Cellular and Immunoparasitology (ACMCIP)
- Protozoans – Cellular and Molecular Parasitology  
American Committee of Molecular, Cellular and Immunoparasitology (ACMCIP)
- Clinical Tropical Medicine: Diagnostics and Febrile Syndromes
- Global Health: Global Health Security and COVID-19
- Malaria: Diagnosis – Challenges and Innovations
- Malaria: Improving the Evidence Base for Strategies to Eliminate Malaria
- Malaria: New Developments in Antimalarial Resistance and Chemoprevention
- Schistosomiasis I: Immunology, Pathology, Molecular Biology, Diagnostics, and Treatment
- Viral Hemorrhagic Fevers

### Symposia:

- Alan J. Magill Malaria Eradication Symposium: Limitations and Challenges in Malaria Elimination
- Symposium I: Role of Women in Advancing Global Health  
ASTMH Committee on Global Health (ACGH)
- Monkeypox
- Structure-Based Development of a Second-Generation Circumsporozoite Protein (CSP) Malaria Vaccine

## TUESDAY, NOVEMBER 1

**Late-Breaker Abstract Session:** Late-Breakers in Clinical and Applied Sciences

**Plenary Session:** Commemorative Lecture

### Scientific Sessions:

- Malaria – Immunology and Vaccines  
American Committee of Molecular, Cellular and Immunoparasitology (ACMCIP)
- Flavivirus Vaccines and Immunity
- Integrated Control Measures for Neglected Tropical Diseases
- Malaria: Approaches for Understanding Malaria Biology and Pathology
- Malaria: Immune Responses to Malaria – Different Approaches and Settings
- Malaria: Vaccine Development and Human Trials
- Mosquitoes: Insecticide Resistance and Control

**Special Session:** Tips from the ASTMH Green Task Force: Greening Up Your Lab, Clinical Practice and Field Work

### Symposia:

- Advances in Point-Of-Care Technologies for NTDs
- AJTMH Stories from the Field Hosts ASTMH's First StorySlam
- Symposium II: Health System Resiliency to Combat System Stressors: Lessons from Pandemics and Climate Change  
ASTMH Committee on Global Health (ACGH)
- Innovations Pitch Competition: Global Health and Human Rights
- A Scientist's Cheat Sheet to Understanding Washington, DC

## WEDNESDAY, NOVEMBER 2

**Late-Breaker Abstract Session:** Late-Breakers in Malaria

**Late-Breaker Abstract Session:** Late-Breakers in Virology

**Plenary Session:** President's Address – ASTMH – A means to what end?

### Scientific Sessions:

- Global Health: Planetary Health
- Malaria: Epidemiology, Surveillance and Data Utilization
- Malaria: *Plasmodium* Genetics and Genomic Epidemiology across Species
- Malaria: Understanding Challenges and Developing Solutions for Delivery of Malaria Interventions

### Symposia:

- Democratization and Decolonization of Tropical Medicine and Global Health
- Emergence of Artemisinin Resistance in East Africa
- Malaria Molecular Surveillance in Africa – Experience and Lessons Learned with a Focus on Establishing Genomics Capacity in Tanzania
- The Invasion and Expansion of *Anopheles stephensi* into Africa: How Are National Malaria Programs Adapting and Responding?
- Vaccines that Interrupt Malaria Transmission (VIMT) – Development, Evaluation and Implementation

## THURSDAY, NOVEMBER 3

### Scientific Sessions:

- Kinetoplastid Cellular and Immunoparasitology  
American Committee of Molecular, Cellular and Immunoparasitology (ACMCIP)
- Clinical Tropical Medicine: Tropical Infections and HIV
- Malaria: Prevention – Several Strategies
- SARS-CoV-2 and Other Viruses

### Symposia:

- Combining Malaria Interventions: From Trials to Modeling and Optimizing the Impact of Implementation
- The Invisible Burden: Measuring and Evaluating the Impact of Infectious Diseases on Cognition

All livestreamed sessions will be recorded and available On-Demand until **October 1, 2023**.  
Digital posters submitted to the ePoster Hall Gallery will be available for  
On-Demand viewing through **April 30, 2023**.
