official Journal of the American Society of Tropical Medicine and Hygiene

ASTMH		THE AMERICAN JOURNAL OF TROPICAL MEDICINE AND HYGIENE	
AMERICAN SOCIETY OF TROPICAL MEDICINE & HYGIENE ADVANCING GLOBAL HEALTH SINCE 1903		official Journal of the American Society of Tropical Medicine and Hygiene	
VOLUME 91 SEPTEMBER 2014 NUMBER 3			
<b>EDITORIAL</b>			
The ability to inoculate purified malaria sporozoites will accelerate vaccines and drug discovery 437 Michael F. Good			
<b>FEATURES IN CLINICAL TROPICAL MEDICINE</b>			
Bacterial myringitis 439 Fernando Mejia and Carlos Saiz			
A young man evaluated for suspicion of lymphoma 440 Anthony P. Cannella and Joseph M. Vinetz			
<b>ARTICLES</b>			
Perspective piece: Current strategic thinking for the development of a trivalent alphavirus vaccine for human use 442 Daniel W. Watts, O'Gry Hagan, Shaoh Y. Gardner, Crystal Jiang, Lacey C. Deary, Corine S. Schmaling, and Karin Carlson			
Review article: Risk-factor selection in Southeast Asia: Implications for local populace and febrile returned travelers 451 Ai Fan Hong, Dennis W. Spearman, Ronald J. Murray, and Stephen Graves			
Review article: Community health workers and stand-alone or integrated case management of malaria: A systematic literature review 461 Luz Smith-Patlan, Barbara Wilho, Sarah Kudojira, Nyasa Shauky, Julia Kim, Martina Bui, Jayne Webster, David Schellenberg, and Ngugi Nguga			
Controlled human malaria infection of Tanzanians by intradermal injection of aseptic, purified, cryopreserved Plasmodium falciparum sporozoites 471 Sof Shikhaque, Maucica Rutahwa, Peter F. Billingsley, Mwangi Cheruiyot, Claudia A. Dubzberger, Eric R. James, Maximilian Mpinga, Omar Ali Jama, Tobias Schneider, Eric Huber, Anusha Chakravarti, Anita Mahajan, Basile Simeon, Elizabeth Swerlow, L. W. Preston Church, Corinna C. Heenan, Robert W. Stevenson, Christopher Pavesi, Maria Venekoven, Priya Sen, Omar Lwero, Paul Mutai, Ali Hamad, Ali Mohammed, Anissa Urassa, Yulu Mzee, Dabito Puffa, Adam Tuboi, B. Kim Lee Sim, Marcel Tanner, Saïm Abdulla, and Stephen L. Hoffman			
Short report: High sensitivity and specificity of clinical microscopy in rural health facilities in western Kenya under an external quality assurance program 481 Rebecca Waiuku, Edna Sang, Olympia Chenyoti, Angelina Aboti, Diana Mwangi, and Wendy Prudhomme O'Keefe			
Quantification of Plasmodium falciparum histidine-rich protein-2 in cerebrospinal spinal fluid from cerebral malaria patients 486 Pat Mills, Kris Thapar, Nicholas M. Anwar, VSA, Thera, Carlos A. Paro, J. Bruce Weinberg, Jackson Mwakima, Salvatore Ferrero, Esther O. Mwakimambo, Donald L. Granger, and David J. Sullivan			
Short report: Reversibility of retinal microvascular changes in severe falciparum malaria 483 Richard J. Mudge, Hugh W. E. Kingston, Sonia Jolly, Sanjo Mahang, Sang K. Mahra, Nicholas J. White, and Arjen M. Donstrop			
PROMIS: A case study of collecting PDA-based geo-tagged malaria-related survey data 486 Yiqi Zhou, Neil J. Lobo, Adam Madico, John E. Gitting, Agnes Malishev, Jennifer Stevenson, Subhrajyoti, Frank H. Collins, and Greg Mosley			
Investigating the important correlates of maternal education and childhood malaria infections 509 Joseph D. Njai, Rob Stephenson, Manoj P. Menon, S. Patrick Kachur, and Deborah A. Maitland			
The impact of human immunodeficiency virus (HIV) co-infection on the economic burden of cutaneous leishmaniasis (CL) in Brazil and potential value of new CL drug treatments 520 Stephanie D. Koehler, Kristina M. Bacon, and Bruce Y. Lee			
Mortality due to Chagas disease in Brazil according to a specific cause 528 Gabriel Alves de Nobrega, Wildo Navarrete de Araújo, and Ana Maria Hignite Vasconcelos			
Short report: Trypanosoma cruzi infection in Myopitis galandii and Myopitis apicalis: The effect of feeding nymphs from the field 534 Carmela Espinoza, Ferenica Vespino, Ricardo Campos, Sylvia Ortiz, Carolina Borja-Molina, and Aldo Sobal			
Cyclospora coproantigen in a Pediatric Hospital in Mexico 537 Guadalupe E. Orozco-Macalusa, Orlando A. Martínez-Loya, and Thelma C. Ornela			
Short report: Management of a chest-wall soft-tissue tumor caused by an infection with the larval tapeworm pathogen Taenia crassiceps 541 Christian Baezel, Stefan Wenzel, Georgios Stavridis, Dirk Tempelmeier, and Dennis Teppe			
CONTENTS CONTINUED ON INSIDE COVER >>>			
Malaria 437, 461, 471, 481, 486, 493, 496, 509	Leishmaniasis 520	D diarrhoeal diseases 555, 563	Chikungunya 635
Bartonellosis 439	Chagas disease 528, 534	Cholera 570	Zoonotic diseases 542
Fungal diseases 440	Cysticercosis 537	Anthrax 574	HIV 645
Viral encephalitis 452	Toxoplasmosis 541	Trachoma 577	Lymphoma 648
Rickettsial diseases 451, 480, 584, 589	Schistosomiasis 544, 547	Dengue 598, 611, 621	

The American Society of Tropical Medicine and Hygiene, founded in 1903, is the largest international scientific organization of experts dedicated to reducing the worldwide burden of tropical infectious diseases and improving global health. We accomplish this through generating and sharing scientific evidence, informing health policies and practices, fostering career development, recognizing excellence, and advocating for investment in tropical medicine/global health research.

## AJTMH FAST FACTS

Frequency: Monthly, with articles online ahead of print on a weekly basis Established in 1921

Number of manuscripts published in 2015: 508

2015 impact factor: 2.453

Five-year impact factor: 2.740

Submissions: Over 800 annually, with 2/3 from outside the US

Circulation: Spans six continents with an average of 65,000+ monthly website visits

**EDITORIAL CONTENT:** *AJTMH* is among the top-ranked tropical medicine journals in the world publishing original scientific articles and the latest science covering new research with an emphasis on population, clinical and laboratory science and the application of technology in the fields of tropical medicine, parasitology, immunology, infectious diseases, epidemiology, basic and molecular biology, virology and international medicine.

The Journal publishes unsolicited peer-reviewed manuscripts, review articles, short reports, images in Clinical Tropical Medicine, case studies, reports on the efficacy of new drugs and methods of treatment, prevention and control methodologies, new testing methods and equipment, book reports and Letters to the Editor. Topics range from applied epidemiology in such relevant areas as AIDS to the molecular biology of vaccine development.

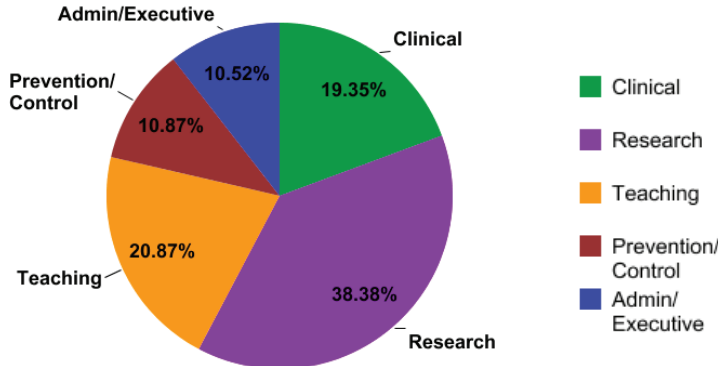

**TARGET AUDIENCES:** The Journal is of interest to epidemiologists, parasitologists, virologists, clinicians, entomologists and public health officials who are concerned with health issues of the tropics, developing nations and emerging infectious diseases. Major granting institutions including philanthropic and governmental institutions active in the public health field, and medical and scientific libraries throughout the world purchase the Journal.

**SUPPLEMENTS:** Two or more supplements to the Journal on topics of special interest are published annually. These supplements represent comprehensive and multidisciplinary discussions of issues of concern to tropical disease specialists and health issues of developing countries.

## ADVERTISING

### WHO READS THE JOURNAL?

### HOW TO PLACE AN AD

To place orders for product advertisements or classifieds ads contact the Managing Editor at [cbs15@case.edu](mailto:cbs15@case.edu). Although the Journal accepts advertisements for products and services relating to the fields of tropical medicine and public health, the American Society of Tropical Medicine and Hygiene has no commercial interests in nor does it endorse or disapprove of specific products or services.

### PLACEMENT

Ads appear on the inside and outside back covers or precede and follow paginated material.

### BANNER ADVERTISEMENTS

Banner ads can be placed on an online journal page for \$400 for one month or \$650 for two months. For more information, contact the managing editor.

Size: 220 pixels wide x 40 pixels high

File format: GIF

File size suggestion: 20k maximum (ideally, less than 10k)

Bit depth suggestion: 5-bit color maximum

ALT Text: A short 5-10 word description of the ad for people who have image-loading turned off or are using a browser that doesn't display images (like Lynx).
